Gyro No. 03			Annual:	Sphere:

THAWE MARINE : PRE-SURVEY FORM

IMPORTANT NOTES FOR GMDSS RADIO SURVEY:

1. Ensure the GMDSS reserve batteries have a full charge on them
2. Carry out an SSAS test prior to entering port and have the results available for the technician
3. Have the LRIT COC available for the technician
4. Have prepared for the technician copies of the valid General Operator's Certificate (at least 2)
5. Make sure that the Record of Approved GMDSS Radio Installation is available on board (MANDATORY). Note that the issuance of this form should be considered as a separate service request, since it is not subject to the annual radio survey.

IMPORTANT NOTES FOR VDR APT:

1. Please make sure all navigational equipment is switched on 12 hours prior to the scheduled time for the APT.
2. Failure to complete this form and report accurately may result in the APT having to be stopped until such time as any found deficiencies are corrected.
